What is Claimed is:

1. An artificial fingernail package comprising:  
a packaging frame for storing a plurality of artificial fingernails of varying width,  
wherein for at least one available width there are at  
least two artificial fingernails having different arch  
heights; and  
an exterior portion that houses said packaging frame, said exterior portion comprising a transparent portion for allowing the arch height of at least one of said artificial fingernails to be observable outside of said package.
2. The artificial fingernail package of claim 1 wherein said packaging frame comprises at least one curvature-displaying compartment, said curvature-displaying compartment comprising:  
at least one of said artificial fingernails; and  
means for retaining said at least one of said artificial fingernails in said curvature-displaying compartment such that the c-curve of said at least one of said artificial fingernails is observable outside of said package through said transparent portion of said exterior portion.
3. The artificial fingernail package of claim 2 wherein means for retaining comprises inserting said at least one of said artificial fingernails into a nail receiving slit of a sponge-like material.
4. The artificial fingernail package of claim 1 wherein said packaging frame comprises at least

- 17 -

one primary compartment for loosely storing a plurality of artificial fingernails.

5. The artificial fingernail package of claim 1 wherein said packaging frame comprises at least one display compartment, each said display compartment containing at least one of said artificial fingernails, wherein the top surface of said one of said artificial fingernails is observable outside of said package through said transparent portion of said exterior portion.

6. The artificial fingernail package of claim 1 wherein said packaging frame comprises an adhesive compartment that contains a container of adhesive for applying at least one of said plurality of 5 artificial fingernails.

7. The artificial fingernail package of claim 6 wherein said packaging frame further comprises a pin compartment that contains a push pin capable of piercing a hole in the tip of said container of adhesive.

8. The artificial fingernail package of claim 1 wherein said packaging frame comprises a stick compartment that contains a manicure stick.

9. The artificial fingernail package of claim 1 wherein said plurality of artificial fingernails are molded from plastic.

10. The artificial fingernail package of claim 1 wherein said plurality of artificial
